

Nuh Jama

Software Developer

ABOUT ME

I'm a curious and driven software developer with a computer science bachelor's degree from KTH. At 25 years old, I have developed a strong passion for technology and programming, a journey that began long before my university studies.

I thrive on tackling complex challenges and continuously learning. Whether it's coding or problem-solving I love to collaborate and fix things both solo and in teams creating great results.

SKILLS

- Start-up experience; collaboration of internal teams and a constant evolving work-landscape
- Programming Languages:** Java, Python, C, C#
- Backend:** Node.js, Apache Kafka, Django, .NET, SQL
- Frontend:** React, Angular, JavaScript, HTML, CSS
- Databases:** MySQL, PostgreSQL, MongoDB and more
- Tools:** Git, GCP, Spring Boot, Docker, Kubernetes, Scrum

Work Experience

- Sep 2024 - Present**
Combitech - Gothenburg
Software Developer at Combitech | Ericsson Cloud RAN
- Mar 2024 - June 2024**
Quandify AB - Alvik
Bachelor Thesis Intern
- Nov 2023 - May 2024**
KTH Royal Institute of Technology - Huddinge
Student Ambassador for Computer Science
- June 2023 - Aug 2023**
Stryda - Stockholm
Backend Developer
 - Built and developed micro-services using Java, Spring Boot and other tools.
 - Created RESTful APIs with Spring Boot to enable efficient communication between services.
 - Participated in code reviews and group discussions.
 - Improved the company's operational efficiency by modifying some the existing codebase.
- Apr 2023 - June 2023**
Telia Company - Solna
Project Intern - Software Development
 - Developed a web app with React and Node.js to address Telia's challenge of limited insight into API consumers.
 - Used GCP to host the web app, ensuring reliable, secure, and scalable operations.
 - Used GKE to manage containerized applications and ensure high availability.
- Mar 2019 - Aug 2020**
Gåshaga Kafferosteri - Lidingö
 - Technician**
 - Maintained the ice cream and coffee machines and tested the quality of the coffee/ice cream.
 - Provided on-site support to assist customers directly with their needs.

Education

- Aug 2021 - June 2024**
KTH Royal Institute of Technology - Huddinge
Bachelor's degree
 - Thesis Title:** Assessing Query Execution Time and Implementational Complexity in Different Databases for Time Series Data.
 - Student representative
 - Many practical courses for developing, maintaining and presenting for software development.
- Aug 2020 - June 2021**
KTH Royal Institute of Technology - Huddinge
Technical Preparatory
 - Technical base year, distance learning with campus meetings.

Curricular Activities

- Gamer enthusiast
- Plays football with friends
